

VISION STATEMENT

Imagine 1 full year has passed. Look back and write down everything that happened in the last year...

Did you have money in your bank accounts? How much? How did it feel?

Was your business profitable? What did you do with your profits?

What kind of experiences did you have?

Did you take vacations?

How did steady cash flow change your life?

How much debt did you reduce?

Did you increase your retirement or investment accounts?

How was your quality of life in regard to finances?
